

## **St. Julia Parish Social Justice Commission Rebuilding Together Boston Project**

Project date (actual work date): April 25, 2009

Project site: Boston. Specific site to be determined. The work site will be a home owned by its occupant. Work will depend on what is needed to be done and the time we have to complete it – a single day!

Who can participate: St. Julia parishioners and guests invited by parishioners. Ages: school aged through adults!

Skills: A desire to help is the primary skill needed by all who participate! Specific skills in home repair and renovation while handy are not necessary. We need individuals who are willing to get their hands dirty and make the project a success. Many hands make light (and in this case quick) work.

Time Commitment: Sign up for the entire day work site time frame: 7:30 am to 4:30 pm, or half day. 7:30 am to 12:00 pm.

Documentation Needed: All participants must sign a volunteer waiver to participate in Rebuilding Together Boston's National Rebuilding Day. No one is allowed on site without a signed waiver.

Identification: Volunteers with completed waivers will be given a t-shirt to designate that they are part of the Rebuilding team.

Will the homeowners be on site?: In almost all cases the homeowners will be on site helping as much as they can.

Deadline for Volunteer Registration: All volunteers must complete a Registration/Skills Inventory form & fax to Sandra Tollos @ 781-642-0601, or email it to her at Stollo@aol.com, or return to St. Julia Church office.

Rebuilding Together Boston is an organization that helps those in need complete repairs to their houses and landscape. In some instances it includes building wheel chair ramps or making a home handicapped accessible. In other cases it may mean repairing plumbing or electrical systems. In all cases the clients are chosen by the Rebuilding Together Boston organization after they apply. The selection process depends on need, work to be done and site safety.
